

# SNR 2015

6th Conference on Systems Neuroscience and Rehabilitation

## March 11-12, 2015

Host: Research Institute of National Rehabilitation Center for Persons with Disabilities

Facilitator: Kenji Kansaku, MD, PhD

Language: English

Conference Objectives: Rapidly growing knowledge in systems neuroscience may help to expand the range of activities possible for persons with disabilities; however, practical application of this knowledge requires cooperation between experts in different research fields. At this conference, the speakers and audience will be from a wide range of research fields, including systems neuroscience, neurology, engineering, and psychology, and the attendees will discuss possibilities in this regard.

### Programs

#### March 11

Opening remark  
13:00-13:10

Introductory session  
13:10-13:40  
Dr Kenji Kansaku(NRCD)

13:40-14:10  
Dr Toru Ogata(NRCD)

Key note lecture:  
14:10-15:10  
Dr Miguel Nicolelis  
(Duke University School of Medicine / Center for Neuroengineering)  
"Computing with Neural Ensembles:  
From Basic Science to Neuroprosthetic Devices"

Poster presentation & coffee break  
15:10-16:00

Session I  
16:00-16:40  
Dr Junichi Ushiba(Keio University)  
16:40-17:20  
Dr Yasuharu Koike(Tokyo Institute of Technology)

#### March 12

Session II  
9:00-9:40  
Dr Surjo R. Soekadar(University Hospital of Tübingen)

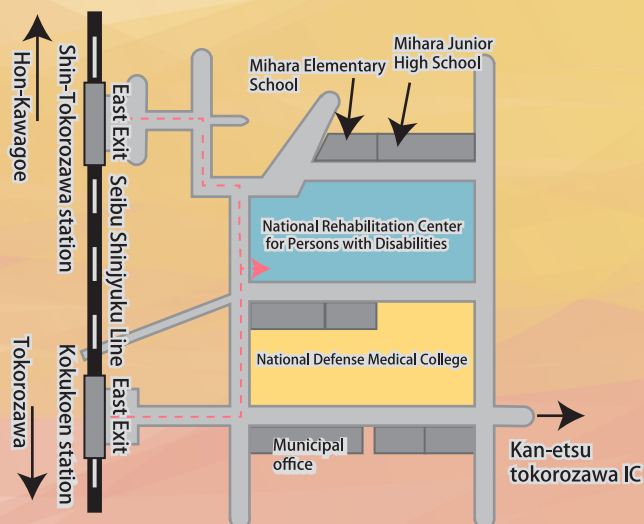

9:40-10:20  
Dr Eiichi Naito(NICT)

Poster presentation & coffee break  
10:20-11:00

Session III  
Special lecture:  
11:00-11:50  
Dr Herta Flor(Heidelberg University)

11:50-12:30  
Dr Takufumi Yanagisawa(Osaka University)

Closing remark  
12:30-12:35

Place: Auditorium  
College of National Rehabilitation Center  
for Persons with Disabilities(NRCD)  
Namiki 4-1, Tokorozawa, Saitama 359-8555, Japan

National Rehabilitation Center  
for Persons with Disabilities
